**the spirit of human rights
makes flying the Sport - education**

Specific Sports targets of the "Socio-educational Sport" dimension.

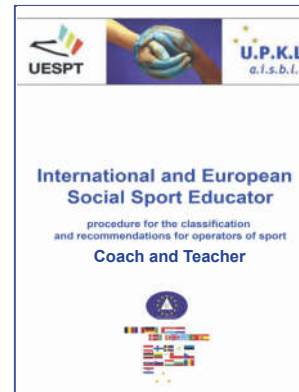

Definition of sport in the Socio-educational sport dimension can be summarized in the following expression:

Through the application of specific motorial language (discipline) and the study of moral principles related to it, the practitioner seeks to address Reality in a responsible way.

Accompanied by the action of the Social Sport Coach the practitioner (student) tries through the best use of physical, intellectual and spiritual energy to live in harmony with Himself and Others in the environment.

Purpose of the search is an excellent physical condition within a healthy social environment: to be healthy, powerful and strong in order to be useful to themselves and to the Others, with ethical behaviours in every action and activity.

From this assumption it follows that the activities carried out by the Social Sport Coach are designed, planned, executed, monitored and evaluated according to the targets of individual and collective growth of the group, measured through condition of progress and mutual well-being in the path towards the happiness of the human being.

Quality framework defines the parameters, skills and guidelines for the development of the training program of the European Social Sports Coach.

This key figure is the resource that facilitates the interaction of the systems sport and school and family to growth and improved physical moral and intellectual development of young European citizens through sport.

Quality framework it's shared with Organizations of sport that signed agreement of collaboration with U.P.K.L. aisbl.

Agreement of collaboration with U.P.K.L. aisbl propose of increase activity in Physical Education in the sport centers and in the school in accord with guideline of the WHO programs.

Agreement is favors the activity of the European Social Sport Coach as provided by the guide lines of the Community Laws U.E and Recommendation HEPA.

Charter of Human Rights values through Sport-education Year 2035. She was born in Brussels at June 28, 2014 on the initiative of the Head of Department of Human Rights of U.P.K.L. and it's shared by important institutions of sport and health care.

Act is promulgated in the Visit Center of DG-COMM. It poses the ethical basis of the training program of the European Social Sports Coach. Year 2035 sets the goal date by which young European citizens will all be educated on the basic human rights of the fourth generation. Human Rights Charter through Sport-education is the tool that facilitates the sharing moral, social and intellectual ensuring the interaction of the different cultural identities that characterize the European Union. With the Charter of Human Rights values through activity of the sport-education we propose to ensure continuity of the Peace among peoples and the social environment for progress together in prosperity and in the welfare.
